Assignment 3
CSS Styles Assignment
Weight: 15%

Introduction

Download the starting zip file found below at the bottom of the page. Extract the zip file and open the assignment-3-2018.psd in Photoshop. For this assignment you are tasked with building the website for the prepared design composite. Note the size of the design comp. You're building a 960px wide center page layout using the framework developed in class. The fonts Oswald and Merriweather can be obtained from Google fonts. Start by renaming your framework folder to beaten-path-assign-3.

Find the assignment 3 zip file link at the bottom of this page.

Site Build

Use your 960px center page layout framework for this assignment.
1. Cut out all images from Photoshop and save them for the web using the best file format. You should have 11 images in total. Try to get the smallest file size with the best possible resolution.
   - Logo Image
   - Search Icon Image
   - Banner Image
   - 4 Article Images
   - 4 Social Media Icon Images
2. Using your center page layout, work from top to bottom; you may want to start by completing the header area first and then moving on to the banner and then the articles (note, completing the styling for a single article should effectively complete the styling needs of the others).
3. Use the web font Oswald for all headings and nav links; use Merriwether for the breadcrumb and paragraphs.
4. The links do not have to go anywhere, simply use the current page as the target (i.e.). All links must have a hover state, you may choose to underline them or change the color of them when the cursor hovers over them.
5. Validate your page and then check your document outline. Your document outline should look like the following:
   Completed Document Outline
   1. The Beaten Path
      1. Untitled Section (this is the nav)
      2. Adventures Off the Beaten Path
         1.Popular Articles
            1.Hiking
            2. Camping
            3. Rafting
            4. Fishing
      3. Connect With Us
      4. Untitled Section (nav)

Submission

Ensure your project folder is named beaten-path-assign-3. Zip your project folder and upload the zip file to Moodle.

Note: It is your responsibility to upload the file correctly and to ensure all tasks have been completed correctly.

Do not make assumptions; if you have a question or are unsure of something, then seek advice from your instructor.

Note: *Late submissions will receive a grade of zero.*

ADVENTURES OFF THE BEATEN PATH

It's time to explore your path. Where will you go?

POPULAR ARTICLES

HIKING

Trek along the edges of a glacier, through wildflower-filled valleys, meandering streams, and admire the turquoise blue glacier-fed lakes. This is hiking in the Rockies where there are countless places to

CAMPING

There's nothing quite like camping among stunning ancient mountain tops and feeling like you're one with nature. Take a ride through breathtaking blue lakes, go for quiet walks in the forest, or go bird watching.

RAFTING

Experience an exhilarating adventure of a lifetime in a spectacular wilderness setting. Hanging glaciers, snow-capped mountains, cascading waterfalls, and beautiful blue waters are all part of the scenery.

FISHING

The glassy stillness of the lake, the bright early mornings, and the cool breeze coming off the water. The solitude of you, your friends and the fish. Think it can't get better than this? Take a glimpse of the surroundings.
